Procedures

Refer: Attachment 1 Emergency Evacuation Procedures to the Service facility (i.e.16-20 Stuart Ave, 101 Strong Drive or Reagans Rd) attached.

Background and Legislation

Background

The Education and Care Services National Regulations 2011 define an emergency in relation to an education and care service as any situation or event that poses an imminent or severe risk to the persons at the HPCH premises e.g., flood, fire or a situation that requires HPCH premises to be locked down.

Comprehensive emergency management includes prevention, preparedness, response and recovery. Services are required to have policies and procedures in place detailing what needs to be done in an emergency, including an emergency and evacuation floor plan. These policies and procedures must be based on a risk assessment that identifies potential emergencies relevant to HPCH (*Regulation 97*).

Early childhood services have a duty of care to all attending the facility including the children, staff, volunteers, students, visitors, and contractors. It is also a requirement under the *Occupational Health and Safety Act 2004* that employers provide a healthy and safe environment for all persons who access HPCH's facilities and/or programs.

All services in Victoria are required to have an Emergency Management Plan (EMP) (*refer to Definitions*) as part of their everyday operations and are required to regularly rehearse their emergency and evacuation procedures (*Regulation 97*). They must:

- Rehearse the procedures every 3 months and document it,
- Involve everyone present at HPCH at the time of the rehearsal. This includes all staff members, volunteers, children, and the responsible person who is present at the time of the rehearsal.

A copy of HPCH's emergency and evacuation policy and procedures must be available for inspection at HPCH premises at all times or on request.

Relevant legislation and standards include but are not limited to:

- Education and Care Services National Law Act 2010
- Education and Care Services National Regulations 2011 including Regulations 97, 98, 168(2)(e)
- National Quality Standard, including Quality Area 2: Children's Health and Safety
- Occupational Health and Safety Act 2004

Definitions

The terms defined in this section relate specifically to this policy. For regularly used terms e.g., Approved provider, Nominated supervisor, Notifiable complaints, Serious incidents, Duty of care, etc. refer to the Definitions file of the PolicyWorks catalogue.

Country Fire Authority (CFA): CFA respond to a variety of fire and emergency incidents. They are also involved in a range of other activities including:

- fire safety building inspections
- delivering community awareness, education and safety programs
- post-incident analysis and fire investigation
- fire prevention planning and land use planning at a municipal level

Bushfire at Risk Register (BARR): Kindergartens and childcare facilities assessed to be at the highest risk of fire are placed on the department's BARR. Inclusion on this register is a trigger for the kindergarten or childcare facility to pre-emptively close on days determined Catastrophic in their Bureau of Meteorology district, as well as other pre-emptive and preparedness actions in line with their fire risk category.

Emergency drill/rehearsal: A process to rehearse anticipated emergency scenarios or events, designed to help clarify roles and responsibilities, provide training and verify the adequacy of the emergency response

Emergency Management Plan (EMP): A written set of instructions for HPCH to prepare for and respond to emergencies. A guide to preparing an emergency plan and an Emergency Management Plan templates are available on the DET website (*refer to Sources*)

Emergency services: Includes ambulance, fire brigade, police and state emergency services.

Evacuation floor plan: An evacuation plan is used where it is deemed necessary to evacuate the immediate area or building to ensure the safety and wellbeing of children and adults. It may also have the name 'evacuation diagram'

Evacuation route: Continuous path of travel (including exits, public corridors and the like) from any part of a building to a safe place

Fire Rescue Victoria (FRV): (previously known as Metropolitan Fire Brigade) respond to fires, complex rescues, road crashes, emergency medical calls and hazardous chemical spills. The FRV aims to reduce the incidence and impact of fire and other emergencies on the community. This is achieved through the delivery of educational strategies that assist the community to become more self-reliant, including:

delivering expert fire and rescue services to the community they serve

driving systemic change to the built environment through reforms to building design, regulations and legislation, and

educating the community through fire prevention programs that improve community safety and build resilience

Hazard: A source or situation with a potential for harm in terms of human injury or ill health, damage to property, damage to the environment or a combination of these

Incident Management Team (IMT): Is the group of incident management personnel comprising of the incident controller and other personnel appointed to be responsible for the functions of operations, planning, and logistics

Lock down: A security measure taken during an emergency to prevent people from leaving or entering a building or premises until the threat or risk has been resolved

Planned closure: services identified as being at high fire risk and on the DET's Bushfire At-Risk Register will close on days determined to have a fire danger rating of Code Red by the Emergency Management Commissioner. Where possible, four to seven days' notice of a planned closure will be provided. Services not on the Department's Bushfire At-Risk Register will remain open, unless directly threatened by fire or another emergency

Risk management: A structured approach to managing uncertainty related to a threat; a sequence of activities including the identification, assessment and prioritisation of risks followed by co-ordinated and economical application of resources to minimise, monitor and control the probability and/or impact of those risks.

WorkSafe Victoria: The manager of Victoria's workplace safety system. WorkSafe Victoria:

- strives to prevent workplace injuries, illness and fatalities
- provides benefits to injured workers and helps them to return to work
- enforces Victoria's occupational health and safety laws
- provides reasonably priced workplace injury insurance for employers
- provides an emergency response service 24 hours per day

Evaluation

To assess whether the values and purposes of the policy have been achieved, the Board of Governance (approved provider) will:

- review the policy to determine whether it adequately addresses a range of potential emergency situations
- regularly seek feedback from everyone affected by the policy regarding its effectiveness particularly following an emergency
- review procedures, including evacuation procedures, to determine their effectiveness, including timing and processes
- use information gained from checks on documentation and practices and the Incident, Injury, Trauma and Illness Record to inform proposed changes to this policy

- revise the policy and procedures as part of HPCH's policy review cycle, or as required by legislation, research, policy and best practice
- consult with emergency services such as the FRV and CFA, to ensure the policy and procedures meet current best practices
- notifying all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk (*Regulation 172 (2)*).

Emergency Evacuation Procedures

Staff members will have designated roles within the evacuation.
Staff are required to practice these roles regularly.

In an evacuation, responsible staff (fire wardens), hirers or community members on site will:

1. Assess the situation and delegate a staff member to **Dial 000** for emergency services if necessary.
2. Kindergarten and or Community Facilities retrieve backpack and sound alert (whistle located in emergency backpack). MCH – retrieve and sound emergency whistle.
3. Alert all staff and visitors throughout the entire building.
4. Check all areas of facility including bathroom, storeroom, kitchen and office and external areas.
5. Evacuate all children, staff and visitors from immediate danger.
6. Assist persons in immediate danger – only if safe to do so.
7. **Collect kindergarten sign in book, visitor book, emergency backpack, keys, emergency medication and mobile phone.**
8. Move to designated assembly point 1.
9. Account for all children, staff and visitors.
10. Proceed to assembly point 2, if required.
11. Ring City of Casey Kindergarten Programs, Maternal Child Health or Team Leader Community Facilities to advise current assembly point or location.
12. Stay at the assembly area until Emergency Services personnel provide you with further instruction. DO NOT re-enter the building.
13. Keep appropriate Council staff (supervisor) updated.
